

About Uniting Vic.Tas

Uniting works alongside people of all ages in local communities across Victoria and Tasmania. We've been supporting Australians for over 100 years.

We empower children, young people and families to learn and thrive. We're there for people experiencing homelessness, drug and alcohol addiction or mental health issues. We support people with disability to live the life they choose. We assist older people to maintain their independence and enjoy life. We provide people with opportunities to access training and meaningful employment. We're proud to welcome and support asylum seekers to our community. We work to empower people with the information, skills and tools they need to live a healthy, happy life.

We celebrate our diversity and welcome all people regardless of ethnicity, faith, age, disability, culture, language, gender identity or sexual orientation.

We acknowledge Aboriginal and Torres Strait Islanders as Australia's First Peoples and as the traditional owners and custodians of the land on which we work.

Why choose Uniting?

Your independence is important to us. We are here to support you to access the services you need quickly and easily. We will help you understand how to coordinate service, even if that means you need us less. Providing advice and expertise to make sure you get the most out of your NDIS plan is why we're here.

As a member of your community in North East Victoria, we know a range of local services across the disability, health and community sectors.

Finding and coordinating the right mix of support to make your NDIS plan work can be overwhelming. We can work with you to meet the challenges and coordinate the support you need from a range of sources so you can live life to the fullest.

We are committed to empowering you to make decisions about the services and support you receive, giving you choice and control over your life.

Working with us

We understand the NDIS and know how important it is to make the most out of your plan.

The first step is getting to know more about you, your situation and life goals. We like to meet with you and the important people in your life face to face, to become part of your network of supports.

We work in partnership with you to:

- access and understand your NDIS plan
- create a myGov account on the internet and use your NDIS activation code to enable you to access the NDIS portal
- develop actions to achieve your goals
- connect to services and develop service agreements
- build your confidence to self-manage supports in the future
- turn your goals into outcomes.

In our experience NDIS plans work best when all your services and support networks are connected and working together. That's the role of our experienced Support Coordinators.
